GroupAssignment.java

Include your IPO Chart with your code in Eclipse IDE: We will discuss and demonstrate this in the computer lab.

IPO CHART

Program name:	**AddCoins.java**	
INPUT	**PROCESS**	**OUTPUT**
Hint: What will the user input?	Hint: What is the program going to do with the input information?	Hint: What will the screen display after user input?
User's first name and last name entere	1. Prompt and read the user's first and last names using input.nextLine(). 2. Extract the first character of the last name using lastName.charAt(0) and convert it to uppercase. 3. Use an if-else ladder to assign a group number (1, 2, or 3) based on alphabetical ranges ('A'-'I', 'J'-'S', 'T'-'Z'). 4. Validate that a valid group was assigned and format the final message. 5. corresponding direction hint. 6. If correct, output the	1. The input prompts: "Enter your first name: " and "Enter your last name: ". 2. The final result string: [First Name] [Last Name] is assigned to Group [1, 2, or 3].

	winning message and exit the loop.
